

CHRGUC-CB-10-C#

10-bay USB-C Chromebook charging cabinet with digital code lock

Compact, secure charging for shared devices

A robust desktop cabinet designed to store and charge up to 10 Chromebooks, laptops or large tablets. The integrated USB-C Power Delivery system keeps charging hardware secured in a separate electrical compartment, while the digital code lock controls access to the devices.

- Integrated intelligent USB-C PD charging
- Digital code lock with master-key override
- Pre-installed USB-C cables on the # configuration
- zioxi oneClick cable management
- Door folds back through 270 degrees for clear access

Key features

- **USB-C Power Delivery:** Integrated PD 3.0 charging supports 5 V, 9 V, 12 V, 15 V and 20 V profiles for compatible USB-C devices.
- **Cable-included configuration:** The trailing # denotes the version supplied with 10 USB-C to USB-C charging cables.
- **Secure access:** Digital code lock with master-key override for administration and emergency access.
- **Neat cable presentation:** Only a short cable length is presented at each shelf to reduce tangles and prevent chargers from going missing.
- **Desktop footprint:** Compact dimensions allow the cabinet to sit on a desk, worktop or counter rather than requiring floor space.
- **Durable construction:** Smooth, easy-clean surfaces and protected electrical components are suited to education and shared-work environments.

Technical specifications

Model-specific data for the CHRGUC-CB-10-C# cable-included USB-C version.

Manufacturer	Zioxi
Manufacturer part number	CHRGUC-CB-10-C#
Product type	Desktop Chromebook / laptop / tablet charging cabinet
Device capacity	10 devices
Compatible devices	Chromebooks, small laptops and large tablets with screens up to 14 inches
Charging method	Integrated intelligent USB-C Power Delivery (PD 3.0)
USB-C output profiles	5 V, 9 V, 12 V, 15 V and 20 V, subject to device negotiation
Maximum charging output	Up to 60 W per USB-C port on the # cable-included configuration
USB-C ports / cables	10 USB-C ports; 10 USB-C to USB-C cables included and pre-installed
Charge status indication	Per-port charging status LEDs on the current # configuration
Lock type	Digital code lock with master-key override
External dimensions	480 (W) x 450 (D) x 520 (H) mm
Device shelf aperture	255 (W) x 400 (D) x 40 (H) mm
Door opening	Folds back through 270 degrees
Power requirement	One mains power socket per cabinet
Finish	White melamine-faced MDF cabinet and doors, compact laminate top, extruded shelves and dark-grey protected electrical compartment
Cooling	Passive / fanless
Warranty	5 years for the cabinet; 2 years for electrical components

Typical applications

Suitable for classrooms, ICT suites, libraries, training rooms, hot-desking areas and other shared-device environments.

Important compatibility note

Confirm that the device, its USB-C port and the supplied cable support USB-C Power Delivery at the required wattage. The shelf dimensions must also accommodate the device with its charging connector inserted, particularly where the USB-C socket is located on the rear edge.

Product revision note: Zioxi's general Chromebook cabinet page also documents an earlier non-# USB-C module rated at up to 45 W per port without cables. This sheet covers the exact CHRGUC-CB-10-C# cable-included configuration, listed with 60 W ports and status LEDs. Confirm the supplied electrical revision for specification-critical orders.
