

CHROMEBOOK CHARGING TROLLEY

CHRGT-CB-32-C

32-bay mobile charging and secure storage trolley with twin digital code locks.

32 device capacity	Up to 14 in device class
2 code locks secure access	Soft start power management

Product overview

The zioxi CHRGT-CB-32-C is a mobile charging trolley designed to store, charge and transport up to 32 Chromebooks, tablets or compact laptops. Devices are stored horizontally on individual shelves, while the manufacturer-supplied AC power adapters are housed in a separate secured electrical compartment. Two digital code locks protect the device compartments and include master-key override.

Manufacturer	zioxi	Model	CHRGT-CB-32-C
Capacity	32 devices	Locking	2 digital code locks
Overall size	1040 W x 500 D x 950 H mm	Shelf size	255 W x 400 D x 40 H mm
Charging type	AC charging via device adapters	External power	1 mains socket required

Compatibility note: The shelf aperture must also accommodate the charging connector while it is plugged into the device, particularly where the power socket is on the rear edge.

Features and specifications

- **32-device storage:** Two banks of horizontal shelves provide organised access for Chromebooks, tablets and compact laptops.
- **Soft-start power management:** Staged start-up helps reduce the risk of tripped fuses or circuit breakers when multiple adapters power on.
- **Secure cable management:** AC adapters and excess cable are kept behind a removable metal cover in a separate electrical compartment.
- **Dual digital-code locking:** Two code locks secure the device compartments; digital code locks are supplied with master-key override.
- **Mobile and classroom friendly:** Integrated steering handholds and lockable castors support controlled movement between rooms.
- **270-degree door opening:** Doors fold back against the trolley with magnetic retention to keep access clear and reduce accidental damage.

Detailed specification

Product type	Mobile Chromebook charging trolley
Compatible equipment	Chromebooks, tablets and small laptops up to the 14-inch class, subject to device and connector dimensions
Device capacity	32
Overall dimensions	1040 W x 500 D x 950 H mm

Power management	Soft-start power management fitted as standard
Power connection	Requires one external mains socket
Adapter support	UK and EU plug sockets for manufacturer-supplied device AC adapters; other formats by request
Mobility	Lockable castors and integrated steering handholds
Door operation	Doors fold back 270 degrees with magnetic retention
Finish	White melamine-faced MDF carcass and doors, compact laminate top, recycled plastic shelves and dark-grey metal electrical-compartment cover
Warranty	5 years; 2 years for electrical components
Included / excluded	Trolley and power-management system included. Individual device power adapters and charging cables are not included

Ordering note

CHRG-T-CB-32-C is the dual digital-code-lock model. CHRG-T-CB-32 uses two key locks, while the -R suffix identifies the RFID card / fob lock option.

Product specifications may be revised by the manufacturer. Always check the shelf aperture and power-connector position against the intended devices before ordering.
