

VLS1-10S-M-C

10-bay Volt 1:1 laptop charging locker with mains sockets and individual digital code locks

Illustrative code-lock configuration

Capacity

10 individually secured devices

Compatibility

Laptops, Chromebooks and tablets up to 17 inches

Charging

Ten internal mains sockets for manufacturer AC adapters

Security

Individual digital code locks with master-key override

Product overview

The Zioxi VLS1-10S-M-C is a compact desktop Volt 1:1 charging locker for ten laptops, Chromebooks, tablets or other mobile devices. Each device is stored in its own compartment with an individual digital keypad lock. A separate front-accessed electrical bay contains ten mains sockets and space for the users' manufacturer-supplied AC power adapters, keeping heat and excess cabling away from the device compartments.

- + Individual digital security: Each bay has a code lock with master-key override for authorised administration.
- + Flexible charging: Ten internal mains sockets support typical plug-top and brick-style laptop power adapters.
- + Large-device capacity: Designed for laptops and Chromebooks up to the 17-inch screen class.
- + Neat cable management: Zioxi oneClick cable ports present only a short charging lead inside each compartment.
- + Robust desktop design: Aluminium double-wall front and doors with a white melamine-faced MDF carcass.

Overall dimensions: 720 H x 580 W x 510 D mm

Technical specifications

Short product code	VLS1-10S-M-C
UK configuration code	VLS1-10S-M-C-G-UK
Manufacturer	Zioxi
Product type	Desktop 1:1 mains laptop charging locker
Device capacity	10 devices
Compatible devices	Laptops, Chromebooks, tablets and other mobile computing devices
Screen-size class	Up to 17 inches, subject to actual device, case and connector dimensions
External dimensions	720 H x 580 W x 510 D mm
Individual door aperture	460 D x 335 W x 50 H mm
Charging method	Ten UK mains sockets in a separate front-accessed electrical bay
Supported chargers	Typical manufacturer plug-top and brick-style AC adapters up to 65 W
Power requirement	One external mains socket for the complete locker
Locking system	Ten individual digital code locks with master-key override
Operating modes	Public multi-user or private dedicated-user operation, depending on lock configuration
Number strip	Grey on the UK configuration
Cable management	Short charging lead presented through Zioxi oneClick cable ports
Door operation	Doors fold back through 180 degrees for safe access
Construction	Aluminium double-wall front and doors with a white melamine-faced MDF carcass
Chargers and cables included	No - device AC adapters and charging cables are required separately
Warranty	5 years; 2 years covering electrical components

Compatibility and ordering notes

- Check the complete device and case dimensions with the charging connector plugged in.
- The 50 mm locker aperture height must accommodate the device, case and connected charging lead.
- The -M suffix identifies the mains-socket version; this model does not contain integrated USB-C charging electronics.
- The -C suffix identifies individual digital code locks. Key-lock and USB-C configurations use different model codes.

Compiled from the Zioxi Volt 10-bay desktop laptop charging locker specification and the corresponding mains/key-lock and USB-C variants. Confirm the final full regional order code before purchase, as manufacturers may update specifications.
