

Zioxi VLS1-10S-M-K

Volt 1:1 Desktop Laptop Charging Locker - 10 Bays, Mains Charging, Key Locks

Illustrative front elevation - key-lock variant

Secure individual storage and charging for larger laptops.

The VLS1-10S-M-K is a compact 10-bay desktop charging locker for laptops, Chromebooks and tablets. Each compartment has an individual key lock, while a separate front-access electrical bay houses ten mains sockets and the users' AC power adapters.

10 individually lockable device bays

Suitable for laptops up to 17 inches

10 mains sockets for AC adapters

Master-key access for administration

10	17 in	580 mm	5 years
DEVICE BAYS	MAX SCREEN CLASS	CABINET WIDTH	PRODUCT WARRANTY

Key features

Individual security: each compartment has its own key lock, with master-key access for authorised staff.

Large-device capacity: compartment dimensions are designed for laptops and Chromebooks with screen sizes up to 17 inches.

Separate electrical bay: ten mains sockets and users' AC power adapters are housed away from the device compartments for tidy cable management and easier servicing.

Organised charging: only a short cable length is presented into each locker bay through zioxi oneClick cable-management ports.

Robust construction: aluminium double-skin front and doors with a white melamine-faced MDF carcase; doors fold back through 180 degrees for safe access.

Technical specification

Base model VLS1-10S-M-K. The current full UK configuration is listed by Zioxi as VLS1-10S-M-K-G-UK, denoting the grey number strip and UK mains format.

Product type	Desktop 1:1 laptop charging locker
Capacity	10 laptops, Chromebooks, tablets or other mobile computing devices
Compatible device size	Up to 17-inch screen class; device, case and connected power-plug dimensions should be checked before ordering
Charging method	Ten mains power sockets housed in a separate front-access electrical bay for users' AC wall or brick-style adapters
External dimensions	580 W x 510 D x 720 H mm
Individual door aperture	335 W x 460 D x 50 H mm
Locking	Individual key locks with master-key access
Power requirement	One external mains power connection for the complete locker
AC adapter support	Supports typical plugtop and brick-style device adapters up to 65 W; contact the manufacturer for unusually large adapters
Cable management	Short cable presentation into each bay using zioxi oneClick cable ports
Construction	Aluminium double-skin front and doors; white melamine-faced MDF carcass
Finish	White cabinet with grey number strip on the current UK configuration
Chargers and cables	Not included. Manufacturer-supplied device power adapters are recommended
Warranty	5 years for the product; 2 years for electrical components

Installation and ordering notes

- Confirm the complete dimensions of each laptop, protective case and connected power plug against the stated door aperture before ordering.
- The -M designation identifies the mains-socket version; this model does not include an integrated USB-C power system.
- The -K designation identifies the individual key-lock configuration. Digital code, RFID and integrated USB-C versions are separate configurations.
- For UK supply, the manufacturer may append finish and regional suffixes to the base code, for example -G-UK.

Model requested: VLS1-10S-M-K

Manufacturer: Zioxi

Information basis

Compiled from the current Zioxi specification for the Volt 10-bay desktop laptop charging locker. Confirm the final full order code and regional power configuration before purchase.
