

VCB1-24S-M-C

24-bay Volt Chromebook charging locker with AC-adapter storage and individual digital code locks

Capacity

24 devices up to 14-inch class

Charging

24 UK mains sockets for AC adapters

Security

Digital code locks with master key

Cable management

Short charging lead presented to each bay

Product overview

The Zioxi VCB1-24S-M-C is a floor-standing charging locker for twenty-four Chromebooks, tablets and smaller laptops. A separate front-accessed electrical bay contains twenty-four UK mains sockets and stores manufacturer AC adapters, while each device compartment is secured by an individual digital code lock with master-key override.

- + Flexible AC charging: Supports manufacturer wall-plug and brick-style power adapters.
- + Individual digital access: Public multi-user mode by default, with private-mode configuration available.
- + Separate electrical bay: Chargers and excess cabling remain away from device compartments.
- + Compact footprint: Twenty-four bays in a tower only 530 mm wide and 460 mm deep.
- + Safe access: Double-skin doors fold back through 180 degrees.

Overall dimensions: 1770 H x 530 W x 460 D mm

Technical specifications

Short product code	VCB1-24S-M-C
Current full UK code	VCB1-24S-M-C-G-UK

Adapters and cables included	No - individual device adapters and cables are required
Optional accessory	VCBST sloping-top module, 530 W x 460 D x 180 H mm
Warranty	5 years; 2 years covering electrical components

Compatibility and ordering notes

- Check device, case and charging connector dimensions against the 50 mm aperture.
- Use manufacturer-approved AC adapters wherever possible.
- The -M suffix identifies AC-adapter storage; the -C suffix identifies digital code locks.
- Change -UK to -EU for European Schuko sockets and mains lead.
