

VLSB-16S-MUC-C

16-bay Volt BYOD locker with a mains socket, 60 W USB-C cable and digital code lock in every bay

Illustrative 16-bay digital code tower

Capacity

16 laptops, Chromebooks or tablets

Dual charging

One mains socket and one USB-C lead per bay

USB-C output

PD 3.0 up to 60 W per port

Security

Digital code locks with master key

Product overview

The Zioxi VLSB-16S-MUC-C combines Bring Your Own Device mains charging with integrated USB-C Power Delivery. Each of the sixteen locker compartments contains a UK mains socket for the user's own AC adapter and a fitted USB-C PD cable delivering up to 60 W. Digital code locks provide secure shared or dedicated-user access, with master-key override for administrators.

- + Dual charging choice: Use the fitted USB-C lead or connect a manufacturer AC adapter to the bay socket.
- + Cables included: Sixteen USB-C to USB-C cables are supplied and fitted.
- + BYOD convenience: The device, AC adapter and cable can remain together inside the compartment.
- + Flexible lock modes: Code locks support public multi-user or private dedicated-user operation.
- + Service-friendly design: USB-C electronics are housed in a separate front-accessed power bay.

Overall dimensions: 1770 H x 580 W x 510 D mm

Technical specifications
