

Zioxi VCB1-10S-M-K

Volt 1:1 Desktop Charging Locker - 10 Bays, Mains Charging, Key Locks

Illustrative front elevation - key-lock variant

Secure individual storage and charging for shared devices.

The VCB1-10S-M-K is a compact desktop charging locker for ten Chromebooks, tablets and smaller laptops. Each bay has an individual key lock, while a separate front-access electrical compartment houses ten mains sockets and the users' AC charging adapters.

- 10 individually lockable device bays
- Suitable for devices up to 14 inches
- 10 internal mains sockets for AC adapters
- Master-key access for administration

Key features

- Individual security:** each device compartment is protected by its own key lock; the lock system includes master-key access for authorised staff.
- Separate electrical bay:** chargers and power bricks are stored away from the device compartments for tidy cable management and easier servicing.
- Organised charging:** only a short length of charging cable is presented into each bay through the oneClick cable-management ports.
- Robust construction:** aluminium double-wall front and doors with a white melamine-faced MDF carcass.
- Space-efficient:** designed for placement on desktops, worktops or alongside desks; locker doors fold back through 180 degrees.

Technical specification

Base model VCB1-10S-M-K. The current full UK configuration is commonly shown as VCB1-10S-M-K-G-UK, denoting the grey number strip and UK mains format.

Product type	Desktop 1:1 charging locker
Capacity	10 Chromebooks, tablets or smaller laptops
Compatible device size	Up to 14-inch screen class; device and case dimensions should be checked before ordering
Charging method	Ten mains power sockets housed in a separate front-access electrical bay for users' AC wall or brick-style adapters
External dimensions	530 W x 450 D x 720 H mm
Individual door aperture	285 W x 410 D x 50 H mm
Locking	Individual key locks with master-key access
Power requirement	One external mains power connection for the locker
Cable management	Short cable presentation into each bay using zioxi oneClick cable ports
Construction	Aluminium double-wall front and doors; white melamine-faced MDF carcass
Finish	White cabinet with grey number strip on the current UK configuration
Chargers and cables	Not included. Manufacturer-supplied device power adapters are recommended
Warranty	5 years for the product; 2 years for electrical components

Installation and ordering notes

- Confirm the complete dimensions of each device, protective case and connected power plug against the stated door aperture before ordering.
- The -M designation identifies the mains-socket version. This model does not include integrated USB-C charging.
- The -K designation identifies the individual key-lock configuration. Digital code and integrated USB-C versions are separate models.
- For UK supply, the manufacturer may append finish and regional suffixes to the base code, for example -G-UK.

Model requested: VCB1-10S-M-K

Manufacturer: Zioxi

Information basis

This data sheet has been compiled from the current Zioxi manufacturer specification for the Volt 10-bay desktop Chromebook charging locker. Product specifications may be revised by the manufacturer; confirm the final full order code and regional power configuration before purchase.
