Good   Room

i3CONNECT Walnut W1

LED THERE BE INTERACTION

Capturing the attention of a large audience has never been easier. The i3CONNECT Walnut W1 display can be turned into a fully interactive experience using a companion display, bringing the engagement of touch to even the largest of meeting rooms.

LED WALL TURNED INTERACTIVE

The wow factor that a large LED wall brings to an audience is widely known. We have taken it a step further, by adding the option of interactivity to the mix. Simply using an i3SIXTY as a companion display for the Walnut W1 allows the user to draw, annotate, browse or perform any other interactive activity which is directly shown on the large LED display.
FULLY COMPATIBLE WITH i3CONNECT STUDIO

The IT admin is able to set up the user experience as the Walnut W1 comes pre-installed with the intuitive i3CONNECT Studio software. This custom-built software solution gives the IT department access to a wealth of options such as changing backgrounds, change all settings and comes with its own installation wizard.

WIRED OR WIRELESS? YOU CHOOSE!

The Walnut W1 is compatible with our i3ALLSYNC solution, allowing for an easy wireless connection between the videowall and the i3SIXTY companion display. This way, up to 6 devices can be shared simultaneously. Do you prefer a wired connection instead? That's perfectly possible as well!

AUDIO THAT MATCHES THE VISUALS

Unlike most screens, Walnut W1 boasts impressive audio that can clearly be heard anywhere in the room without the need for additional equipment. This is due to the placement of speakers on top of the screen, which will not be blocked by the crowd and deliver a crisp audio experience.

REMOTE MANAGEMENT THROUGH CORTEX

With Cortex remote display management, gain the power to manage, monitor and control your i3CONNECT displays from any location at any given time.

SURPRISINGLY LOW POWER CONSUMPTION

With the Walnut W1, you don't need to worry about an ultra-high energy bill. Compared to most LED wall solutions available, the energy consumption is among the lowest in the market.

✌️

CHOOSE PEACE OF MIND

Installing a LED videowall takes time and space, so once its placed, you want it to stay there as long as possible and not run into quality issues along the way. Walnut W1 comes with an extra robust design, which prevents damage during installation. Malfunctioning LEDs are not on the horizon when choosing this display.

WE'RE ON A ROLL!

Add flexibility to your workplace, by adding the optional rolling mount to the Walnut W1 and move the 138" or 165" display around with ease; just make sure it fits through the door.

DISPLAY PROPERTIES	138"	165"
Model	W1 - 138	W1 - 165
Series	I3CONNECT WALNUT W1 – ALL-IN-ONE LED Displays	
Product ID	10010825	10010826

ELECTRICAL REQUIREMENTS

Circuit	Separate circuit with separate circuit braker. No other devices, nor sockets, in the same circuit.
Circuit braker	Minimum 20A
Residual Current	Minimum 30mA

ELECTRICAL PROPERTIES

Input power	100 ~ 240 Volt – 50/60 Hz	
Energy saving features	Auto-brightness adjustment using Ambient Light Sensor	
Standby power	≤0.5W	≤0.5W
Power consumption (average)	0.521KW	0.731KW
Power consumption (max)	1.738KW	2.438KW

REGULATORY INFORMATION

Type approval	CE

ENVIRONMENTAL CONDITIONS

Operating temperature	-10° C ~ 40° C
Operating humidity	10% - 80% RH non-condensing
Usage	Indoor only. In order to ensure long-term and more uniform display effect, do not play fixed images for a long time.

WARRANTY

Standard warranty	2 years from shipment
Extended warranty	3 years for free after registration, additional year available for purchase.

OTHERS

| OTHERS	138"	165"
Recommended Viewing Distance	≥3.2m	≥3.9m
