

IPEVO

# IPEVO V4K

Ultra-High Definition USB Document Camera

IPEVO V4K is IPEVO's lightweight, foldable and affordable USB document camera for those who like their doc cam as portable as their laptop. It is plug-and-play and easy to use, so any distance learner, educator or presenter can take advantage of its potential.

## See What I See.

### Portable and Flexible

- V4K's multi-jointed stand makes capturing images at different heights and positions a walk in the park.
- V4K's body can be folded when not in use, making it more compact and easier to carry around.

### Convenient Built-in Features

- The camera's head sports an 8MP sensor by Sony and can be flipped and rotated, doubling up as a webcam whenever you need to switch the view.
- Features a built-in microphone for recording lessons or attending video meetings.

### Distance Learning / Remote Work Ready

- Works with video conferencing software such as Zoom, Google Meet, Skype, and Microsoft Teams. Or take advantage of the free IPEVO Visualizer software.
