

VLS1-10S-UC-K

10-bay Volt 1:1 USB-C laptop charging locker with individual key locks

Capacity
10 devices

Compatibility
Laptops, Chromebooks and tablets up to 17 inches

Charging
Integrated USB-C PD 3.0, up to 60 W per port

Security
Individual key locks with master-key access

Product overview

The Zioxi VLS1-10S-UC-K is a compact desktop Volt 1:1 locker for securely storing and charging ten laptops, Chromebooks, tablets or other USB-C devices. Each device has its own key-locked compartment, while the integrated USB-C Power Delivery electronics are housed in a separate front-accessed electrical bay. This keeps the charging system and excess cabling away from the individual device compartments.

- + Up to 60 W USB-C PD charging: Supports fast charging for compatible laptops, Chromebooks, tablets and phones.
- + Individual secure storage: Ten separate key-locked compartments supplied with master-key access.
- + Neat cable presentation: Zioxi oneClick cable ports expose only a short cable length inside each bay.
- + Front electrical access: Setup and maintenance remain straightforward when the locker is placed beside other furniture.
- + Robust construction: Aluminium double-skin front and doors with a white melamine-faced MDF carcass.

Overall dimensions: 720 H x 580 W x 510 D mm

Technical specifications

Short product code	VLS1-10S-UC-K
Current UK configuration code	VLS1-10S-UC-K-G-UK

USB-C cables included	No - individual USB-C device cables are required and purchased separately
Warranty	5 years; 2 years for electronics; 1 month for USB cables if supplied

Model-code note: The shortened SKU VLS1-10S-UC-K corresponds to the current UK grey-number-strip configuration VLS1-10S-UC-K-G-UK. Because this SKU has no trailing #, USB-C to USB-C device cables are not included or pre-fitted.

Compatibility notes

- Check the complete device and case dimensions with the USB-C connector plugged in before ordering.
- The 50 mm locker aperture height must accommodate the device, case and connected cable.
- Only USB-C Power Delivery-compatible devices should be connected to the integrated charging system.
