ChargeLite™ Desk

AC Charging Desk Unit

Devices
Perfect for up to 10 laptops, Chromebooks, tablets, or any device up to 14" screen.

Charging
Simultaneous charging ensures all devices are charged in the fastest possible time.
The devices own AC adaptors are neatly stored in the power compartment.
Cable management keeps the leads tidy as they are fed through on to each shelf.

Safe Power Management as Standard
Soft-start, surge and residual voltage protection ensures the safety of users, devices and the unit.
ChargeLite™ is the only solution in its class to include these critical safety features as standard.

ChargeLite™ 10 Desk Unit
fitted with key lock

Construction
Built for longevity with full steel construction to stand the test of time.
Durable finish with antimicrobial paint.
Inbuilt ventilation for an optimal storage and charging environment.

Colours
Available in Blue (as standard) or Black, Green, Red, and Yellow.

Fixed Horizontal Shelving
Store your devices on their feet as intended to prevent damage to ports and connectors.
Fixed shelves, rather than pull out shelves, ensure your unit remains stable.

Locking Options
Triple point locking system.
Available with Keyed Locks, PIN Locks, or RFID Locks.
The power compartment has a separate lockable door, ensuring maximum safety and security.

Support and Warranty
All our products come with extensive warranty and UK based support.
To find our more visit lapsafe.com/warranty

Delivery
Shipped fully assembled by our own team.
Includes product demonstration and removal of all packaging for recycling.

Sustainability
Long lasting, quality construction built to withstand the test of time.
Built using recycled steel.
Part of our Plant-a-tree scheme – with every product sold LapSafe® plant a tree.

Made in Britain
As a registered Made in Britain company we use local suppliers and support local businesses wherever possible.
