IPEVO

Visualize the Big Picture, Wirelessly.

IPEVO VZ-X Wireless, HDMI & USB 8MP Document Camera

VZ-X is IPEVO's most versatile document camera, which features three connection modes — Wi-Fi, HDMI, and USB. You can use it with a computer, iOS / Android devices, or directly with an Apple TV, TV, projector, or monitor in the setup that best suits your needs.

Maximum freedom in connectivity

– There are three ways you can connect your VZ-X: Wi-Fi, HDMI, and USB. You can connect directly to various devices and stream from the best spot.

– VZ-X's battery, built-in microphone and an LED light then further add to its versatility.

High performance with high convenience

– The 8 MP sensor by Sony boosted by an Ambarella system-on-a-chip provides faster focus speed, improved noise reduction, and excellent color reproduction.

– Control buttons on the camera's body allow you to quickly access functions like zoom, image rotation, focus, and more.

Distance Learning / Working Ready

– The camera's head can be flipped upwards and rotated, doubling as a webcam.

– Works with video conferencing software such as Zoom, Google Meet, Skype, and Microsoft Teams when in USB mode.
