

Zioxi CHRGUC-CB-10-C

10-bay USB-C PD Chromebook charging cabinet with digital code lock

PRODUCT OVERVIEW

A compact desktop cabinet designed to securely store and charge up to 10 Chromebooks, laptops or large tablets. The integrated USB-C Power Delivery system removes the need to house individual AC adapters and keeps charging cables organised within a secure electrical compartment.

Lock: Digital code lock with master-key override

Charging: 10 integrated USB-C PD ports

Important: USB-C device cables are required but are not included with this standard, non-# model.

Key features

- Integrated USB-C Power Delivery (PD 3.0) charging for 10 devices.
- Supports 5 V, 9 V, 12 V, 15 V and 20 V charging profiles, up to 45 W per port.
- Suitable for Chromebooks, small laptops, iPad Pro tablets and other USB-C enabled devices up to 14-inch screens.
- zioxi oneClick cable management presents only a short cable length at each shelf, helping prevent tangled or missing cables.
- Separate, lockable electrical compartment keeps the charging system protected and organised.
- Front doors fold back through 270 degrees for unobstructed access and reduced risk of damage.
- Smooth, easy-clean cabinet surfaces with a compact desktop footprint.

Technical specifications

CHRGUC-CB-10-C standard USB-C configuration

Compatibility guidance

The shelf dimensions must accommodate both the device and its connected USB-C plug. Particular care is required where the charging port is located on the rear edge of the device. Confirm the physical dimensions and connector position before ordering.

Model distinction

CHRGUC-CB-10-C is the standard USB-C model. Unlike the CHRGUC-CB-10-C# cable-included version, this standard model does not include the individual USB-C device cables.
