

CHRGTUC-CB-16

16-Bay USB-C Chromebook Charging Trolley with Key Lock

16	60 W	14 in
device capacity	USB-C PD per port	maximum device class

Product overview

The Zioxi CHRGTUC-CB-16 is a compact mobile charging trolley designed to securely store and charge 16 Chromebooks, smaller laptops or tablets. Its integrated USB-C Power Delivery system provides up to 60 W to every device, removing the need to install individual AC adapters inside the trolley.

- Integrated USB-C PD 3.0 charging at up to 60 W per device.
- Supports 5 V, 9 V, 12 V, 15 V and 20 V USB-C charging profiles.
- Soft-start power management helps prevent fuse and circuit-breaker trips.
- Zioxi oneClick cable management presents only a short cable length at each shelf.
- Key-locking door, lockable castors and doors that fold back through 270 degrees.
- Horizontal shelves provide easy access for users of different ages and abilities.

Cable and model notes

Standard model: USB-C charging cables are required separately and are not included with CHRGTUC-CB-16.

Cable-included model: Product codes ending with a # symbol are supplied with fitted USB-C cables presented to each shelf.

Fit check: Confirm that the device and its connected USB-C plug fit within the shelf aperture, especially where the charging port is located on the rear edge.

Specification source: Zioxi official product information for the Chromebook USB-C charging trolley, checked August 2026. Product specifications may be revised by the manufacturer without notice.
