Product View

1.3X Zoom Ratio

Featuring a 1.3x optical zoom lens, the projector offers users the flexibility to select the optimal installation spot within a broader throw distance range, allowing for the perfect image size without disrupting the existing interior design. 1.3x Optical Zoom.

Wireless Projection

Paired with wireless dongle, users could skip the cable and project from smartphone, laptop or PC via wireless signal. Screen Mirroring² support allows quick and seamless screen-mirroring.

24/7 Operation

The projector supports 24 hours-7 days of continuous projection when prolonged periods of use is required. This is especially useful for public display or museum exhibition.

Acer Bluelight Shield

Acer Bluelight shield allows users to lower levels of blue light to lessen the negative effects of blue light exposure. There are three levels of filter in projector suitable for different scenario. Each level also contains dynamic mechanism that will optimize the blue light level based on content. Bluelight shield can reduces up to 30% blue light and protect your eyes.
