iBANK RANGE

The fixed wall storage solution, a seriously strong case that can be located to walls, floors and desks. The iBank is constructed with all welded steel construction and full-length piano hinges for the door. And the door itself gets the full Loxit treatment, formed from 1.5mm thick steel it's wrap around design ensures it gains maximum strength from the body. The final element of the security package is the lock, all iBanks feature high quality ASSA key locks as standard. Optional digital key code and RF-ID locks which can integrate with your current system or standalone, are available.

Inside you'll see the iBank holds up to 16 iPads or tablets from 7-10 inch including a range of case sizes from slim-line right through to a more substantial 26mm, this includes the Griffin Survivor. It boasts many of the same high-tech features found on the iBank Wedge including natural ventilation, ensuring the prevention of heat build up. And inside the charging compartment hides the charging kit or cutting edge USB sync and charge device.

Charge only option - uses the original adapters and plugs into power strips contained within the covered charging compartment.

USB sync/charge - USB charging via a sync/charge device for the optimum charging. Allows analysis via software of charging and syncing devices.

Smart design - the innovative wrap around steel door design ensures an exceptionally strong solution.

Proven track record - extremely strong welded steel case provide class leading quality and security.

Flexible storage - the iBank interior features high-density cushioned foam storage which suits tablets of varying sizes.

Standard - Keyed Lock
High quality ASSA locks are fitted as standard for reliability and peace of mind.

Key options are available: Keyed to differ, Keyed alike and master keyed.

Optional RF-ID Lock - 2 card levels - master and user. Up to 20 masters and 20 users. Standard ISO-14443A RF-ID. The lock is alarmed when opened by force. Battery operated electronic operation with USB chargeable emergency power source.

Optional Passcode Lock - Professional digital keypad access control. Battery operated electronic operation with USB chargeable emergency power source. Code sequences from 4 - 12 numbers.

Sync and charge up to 16 iPads or tablets at once subject to operating system*
