

CHRGTUC-CB-32-C

32-bay USB-C Chromebook charging trolley with two digital code locks

Capacity
32 devices up to 14 inches

USB-C charging
Integrated USB-C PD 3.0, up to 60 W per device

Security
Two digital code locks with master-key override

Mobility
Lockable castors and integrated steering handles

Product overview

The Zioxi CHRGTUC-CB-32-C is a mobile storage and charging trolley designed for 32 Chromebooks, smaller laptops and USB-C tablets. Integrated USB-C Power Delivery electronics provide intelligent charging at up to 60 W per port, removing the need to store individual AC adapters. Devices are stored horizontally on individual shelves, with charging leads presented neatly at the front.

- ✓ Intelligent USB-C PD charging: Supports 5 V, 9 V, 12 V, 15 V and 20 V charging profiles at up to 60 W per device.
- ✓ Soft-start power management: Helps prevent fuse and circuit-breaker problems when charging begins.
- ✓ Secure access: Two digital code locks, each with master-key override.
- ✓ Protected cable management: Charging electronics and excess cabling are secured in a separate side compartment.
- ✓ Classroom-ready mobility: Doors fold back through 270 degrees, with magnetic retention, steering handles and lockable castors.

Overall dimensions: 950 H x 1040 W x 500 D mm

Technical specifications

Product code supplied	CHRG TUC-CB-32-C
Current Zioxi code-lock listing	CHRG TUC-CB-32-C#
Product type	Mobile USB-C Chromebook and laptop charging trolley
Device capacity	32 Chromebooks, smaller laptops or USB-C tablets

Doors and mobility	270-degree folding doors, magnetic retention, steering handle cut-outs and lockable castors
Finish	White melamine-faced MDF carcass and doors, compact laminate top, recycled-plastic shelves and dark-grey metal electrical-compartment cover
Warranty	5 years; 2 years covering electrics

Model-code note: Zioxi's current product table lists the digital code-lock version as CHRG TUC-CB-32-C#. The # suffix indicates that 32 USB-C to USB-C charging cables are supplied and pre-fitted. Confirm the exact ordered configuration with the supplier where the SKU is shown without the # suffix.

Compatibility notes

- The shelf aperture must also accommodate the USB-C connector while it is plugged into the device.
- Check the precise device dimensions and charging-port position before ordering.
- Only USB-C PD-compliant devices should be connected to the integrated charging system.
