

VLS1-16S-M-K

16-bay Volt 1:1 laptop charging locker with mains sockets and individual key locks

Capacity

16 individually secured devices

Compatibility

Laptops, Chromebooks and tablets up to 17 inches

Charging

16 internal mains sockets for manufacturer AC adapters

Security

Individual key locks with master-key access

Product overview

The Zioxi VLS1-16S-M-K is a floor-standing Volt 1:1 charging locker for sixteen laptops, Chromebooks, tablets and other mobile devices. Each device is housed in its own key-locking compartment. A separate front-accessed electrical bay contains sixteen mains sockets and space for manufacturer-supplied AC adapters, keeping heat and excess cabling away from the individual device bays.

- + Individual secure access: Each compartment has a key lock, with master-key access for administration.
- + Flexible AC charging: Sixteen internal mains sockets support plug-top and brick-style power adapters up to 65 W.
- + Large-device storage: The 83 mm-high locker apertures are designed for laptops in the 17-inch class.
- + Protected cable management: Zioxi oneClick ports present only a short charging lead inside each bay.
- + Easy installation: The front-accessed electrical compartment simplifies setup and maintenance in locker banks.

Overall dimensions: 1770 H x 580 W x 510 D mm

Technical specifications

Short product code	VLS1-16S-M-K
Current UK configuration code	VLS1-16S-M-K-G-UK
Manufacturer	Zioxi
Product type	Floor-standing Volt 1:1 mains laptop charging locker
Device capacity	16 devices
Compatible devices	Laptops, Chromebooks, tablets and other mobile computing devices
Screen-size class	Most devices up to 17 inches, subject to actual device, case and connector dimensions

Charging method	16 UK mains sockets housed in a separate front-accessed electrical bay
Supported adapters	Manufacturer plug-top and brick-style AC adapters up to 65 W
Power requirement	One external mains socket per locker tower
Locking system	16 individual key locks with master-key access
Number strip	Grey
Cable management	Short charging lead presented through Zioxi oneClick cable ports
Door operation	Doors fold back through 180 degrees for safe access
Installation	Metal base with adjustable feet; optional sloping-top module available separately
Construction	Aluminium double-skin front and doors with a white melamine-faced MDF carcass
Chargers and cables included	No - individual device AC adapters and charging cables are required
Warranty	5 years; 2 years covering electronics

Compatibility and ordering notes

- Check the complete device and case dimensions with the power connector plugged in before ordering.
- The -M suffix identifies the mains-socket version; integrated USB-C charging uses a different model code.
- The -K suffix identifies individual key locks. Digital-code and RFID configurations have different suffixes.
- Change the -UK regional suffix to -EU for European Schuko sockets and mains lead.
