

VCB1-10S-UC-C

10-bay Volt 1:1 USB-C Chromebook charging locker with individual digital code locks

Capacity

10 individually secured devices

Compatibility

Chromebooks, smaller laptops and tablets up to 14 inches

USB-C charging

Integrated USB-C PD 3.0, up to 60 W per port

Security

Digital code locks with master-key override

Product overview

The Zioxi VCB1-10S-UC-C is a compact desktop charging locker for ten Chromebooks, smaller laptops and tablets. Each device is stored in its own secure compartment with an individual digital keypad lock. Integrated USB-C Power Delivery electronics are housed in a separate front-accessed electrical bay, helping keep heat and excess cabling away from the device compartments.

- + Up to 60 W per port: USB-C PD 3.0 supports laptops, Chromebooks, tablets and phones.
- + Individual digital access: Code locks include master-key override and can be configured for public or private use.
- + Neat cable presentation: Zioxi oneClick cable ports expose only a short lead length inside each compartment.
- + Front electrical access: Installation and maintenance remain straightforward when the locker is beside furniture.
- + Robust construction: Aluminium double-wall front and doors with a white MFMDf carcass.

Overall dimensions: 720 H x 530 W x 450 D mm

Technical specifications

Short product code	VCB1-10S-UC-C
Current UK configuration code	VCB1-10S-UC-C-G-UK
Manufacturer	Zioxi
Product type	Desktop 1:1 USB-C Chromebook charging locker
Device capacity	10 devices
Compatible devices	Chromebooks, smaller laptops, tablets and USB-C mobile devices
