

NETTXS-LS-16

16-Bay Network-Ready Laptop Charging Trolley

Secure mobile storage and charging for 16 laptops, with organised Ethernet cabling and space for a customer-supplied 1U network switch.

16

device bays

15.6 in

device class*

950 x 780 x 550 mm

H x W x D

Key lock

door security

Important: NETTXS variant

No Ethernet switch is included; the customer supplies and fits a suitable 1U switch.

Key features

- Charges 16 laptops using the manufacturers original AC power adapters.
- Sequential soft-start power management helps prevent fuse and circuit-breaker trips.
- Sixteen short Cat6 Ethernet patch leads are presented neatly to the device shelves.
- Separate secured compartments organise power adapters, network equipment and cabling.
- Active mechanical ventilation supports cooling during charging and laptop updates.
- Doors fold back through 270 degrees and are retained magnetically for easy access.
- Large lockable castors and integrated handholds support safe movement between rooms.

*Compatibility is determined by shelf size and connector position, not screen size alone.

Technical specification

Zioxi NETTXS-LS-16

Organised DC power and Ethernet leads

Device compatibility

Shelf aperture

450 D x 300 W x 40 H mm

Suitable for most laptops and Chromebooks up to at least the 15.6-inch class. The shelf must also accommodate the connected power and Ethernet plugs.

Ethernet switch	Not included; customer supplies and fits 1U switch
Ventilation	Active mechanical ventilation
Mobility	Large lockable castors and integrated handholds
Finish	White MFMDf, compact laminate top, blue metal compartment cover
Warranty	5 years; 2 years on electrics; Ethernet cables excluded

Ordering and installation notes

- The NETTXS-LS-16 does not include an Ethernet switch. A compatible 1U rack-mount switch must be supplied and installed by the customer.
- Laptop AC adapters are not included. Use the original adapters supplied with the devices.
- Check the laptop power and Ethernet socket positions before ordering. This model is best suited where both connectors are located on the same end of the device.
- The trolley can also accommodate a Wi-Fi router in the network equipment compartment, subject to available space and installation requirements.
- Dimensions and specifications may be revised by the manufacturer; confirm critical fit requirements before purchase.
