

VCB1-10S-M-C

10-bay Volt 1:1 mains charging locker with individual digital code locks

Capacity	10 individually secured devices
Compatibility	Chromebooks, tablets and smaller laptops up to 14 inches
Charging	Ten internal mains sockets for device AC adapters
Security	Digital code locks with master-key override

Product overview

The Zioxi VCB1-10S-M-C is a compact desktop charging locker designed for ten Chromebooks, tablets and smaller laptops. Each device is stored in its own secure compartment with an individual digital keypad lock. A separate front-accessed electrical bay contains ten mains sockets and space for the manufacturers' AC adapters, keeping heat and excess cabling away from the device compartments.

- + Individual multi-user access: Digital code locks are supplied with master-key override and can be configured for public or private use.
- + AC-adapter charging: Ten internal mains sockets support plug-top and brick-style manufacturer chargers.
- + Protected cable management: Zioxi oneClick cable ports present only a short charging lead within each locker bay.
- + Front electrical access: Setup and maintenance remain straightforward when the unit is positioned beside other furniture.
- + Robust compact design: Aluminium double-wall front and doors with a white MFMDf carcass.

Current Zioxi dimensions: 720 H x 530 W x 450 D mm

Technical specifications

Short product code	VCB1-10S-M-C
Current UK configuration code	VCB1-10S-M-C-G-UK

Dimension note: Zioxi's current official specification for VCB1-10S-M-C-G-UK is 530 W x 450 D x 720 H mm. The AV Parts Master short-SKU listing shows a 460 mm depth. Confirm the exact delivered configuration where clearance is critical.

Compatibility notes

- Check the complete device and case dimensions with the charging connector plugged in.
- The 50 mm locker aperture height must accommodate the device, case and connected lead.
- Use the device manufacturer's approved AC adapter wherever possible.
